

(24th June 2015)

Hi Chris,

We had people running out of their boats to compliment our paintwork! And the CaRT lockkeepers at Napton thought it was a brand new boat we had just collected. It's just sad that we got some scratches already, but I guess with three long days of cruising it was going to happen at some point.

Thanks. Yes we would be interested in help with fitting the holders...not sure when as we're planning to go to Braunston to see the working boats this weekend and I'm playing roller derby the weekend after that and I have no time off work.

I've been sweeping with a soft broom, but the sap is really obnoxiously sticky. I'm hoping we can cut back a lot of the lower branches. We plan on doing more cruising when we have time too. I've hung the side fenders on with hooks now - I guess I should move those around regularly so they're not sitting on the paint too long also?

Jane

Hi Chris,

First off, the boat looks brilliant! We had so many compliments and people asking where we got it painted. People were asking if it was a brand new boat.

cheers!

Jane
